RockySoft – Corporate Overview

Headquarters

RockySoft is a privately held company. Its headquarters is in Fort Collins, Colorado, at the north end of the Convergence Corridor—Colorado’s burgeoning high-tech community along the Front Range of the Rocky Mountains.

Transforming Inventory Management for Distributors and Manufacturers

RockySoft Corporation is a pioneer in web-hosted solutions that optimize supply chain inventory management. The company provides distributors and manufacturers with a powerful, all-in-one supply chain visualization and advanced planning system, to streamline forecasting, planning, and procurement.

Mission—Bringing About Profitability

Helping distributors and manufacturers minimize their inventory investment, maximize their customer service, and automate their supply chain inventory processes—in ways that positively impact the bottom line—is RockySoft’s mission. The company’s solutions transform complex, time-consuming spreadsheet-based inventory processes into efficient, high-speed, automated processes. And by delivering on this promise, RockySoft helps distributors and manufacturers experience a multitude of financial benefits.

Sample Clients List

RockySoft has 35+ clients running our Inventory Planning applications in North America, Europe, The Caribbean and Asia. The following list is a representative sample of RockySoft’s distribution and manufacturing clients.

A Successful History

RockySoft can trace its roots back to the 1980's, when its technology was originally developed at Hewlett-Packard. At that time, RockySoft's Founder delivered the first version of "Demand Manager" while serving as the central forecaster and supply chain consultant for several divisions of "Hewlett-Packard". Over a dozen divisions of Hewlett-Packard were using the software by the mid 1990's. Then, in 1999, RockySoft was formed to bring this software technology, skills and 20+ years of practical experience to a wider constituency.
